

Policy Statement

The Rural Locum Assistance Program's vision is:

The Rural Locum Assistance Program will work to improve access of rural and remote communities to GP Proceduralists, anaesthetists, obstetricians, nurses, midwives and allied health professionals.

The Rural Locum Assistance Program has three core principles that govern the organisation's operations. These are:

*High Quality Service Delivery
Excellence in Human Resources
Sound Financial Management*

These three principles are addressed at every stage and decision point to ensure that a balanced outcome is always achieved with the primary focus being to attain our vision.

The Rural LAP mission is to:

- Improve the retention of nurses, midwives and allied health professionals across Australia;
- Improve the attractiveness of rural and remote practice for nurses, midwives and allied health professionals; and
- Enhance the ability of eligible GP Proceduralists, anaesthetists, obstetricians, nurses, midwives and allied health professionals to take leave and undertake continuing professional development activities.

Rural LAP is committed to continual improvement in performance and effectiveness in providing the health professionals to support the primary health services of rural and remote Australia.

Quality Management

The Quality Policy and overall Quality Management System are reviewed quarterly by the Management Review Committee to ensure it complies with the requirements of AS/NZS ISO 9001:2015. All staff shall ensure that the Quality Policy and information within the QMS is communicated and recognized at appropriate levels throughout the organisation.
